Functions worker

.NET 8.0 Isolated (Long Term Support)

Function

Blob trigger

☐ Enlist in Aspire orchestration

Aspire version

13.1

☑ Use Azurite for runtime storage account (AzureWebJobsStorage)

☐ Enable container support

Connection string setting name

Path

samples-workitems

☑ Configure dependencies

Connect to dependency

Select a service dependency to add to your application.

Search service dependency

Storage Azurite on container (Local)
Container with open-source emulator that provides a local environment for testing Azure blob and queue storage applications.

Storage Azurite emulator (Local)
Node.js based open-source emulator that provides a local environment for testing Azure blob and queue storage applications.

Azure Storage
Cloud storage that is highly available, secure, durable, scalable, and redundant. Includes Azure Blob, File, Queue, and Table services.
